OF THE

COLLEGE OF SCIENCE

KYOTO IMPERIAL UNIVERSITY

SERIES A

VOL. XII

1929

KYOTO

CONTENTS OF VOLUME XII

PAGE

Osamu Masaki—Studies in Photographic Sensitivity, Part I. The Effect of Heat on the Sensitivity Curve of Photographic Plates 1

Osamu Masaki—Studies in Photographic Sensitivity, Part II. On the Sensitivity of Photographic Plate at Various Temperatures 13

Masayoshi Ishibashi—Quantitative Analysis of Phosphoric Acid, Part I. Determination as Magnesium Pyrophosphate ... 23

Masayoshi Ishibashi—Quantitative Analysis of Phosphoric Acid, Part II. New Gravimetric and Volumetric Methods... ... 39

Masayoshi Ishibashi—Quantitative Analysis of Phosphoric Acid, Part III. Determination as Zinc Ammonium Phosphate ... 49

Hatsumi Katagishi, Yoshinobu Ginbayashi and **Motooki Matsui**—The Anodic Behabiour of Substituted Acetic Acids, Part I. Diphenylacetic Acid 57

Kaoru Matsumiya and **Hisakazu Nataka**—Organic Compounds of Arsenic, VI. Electrolytic Reduction of some Aryl-Arsinic Acids 63

Goro Shima—On the Electrolytic Reduction of Aldehydes, Part V. Cinnamic Aldehyde 69

Goro Shima—On the Electrolytic Reduction of Aldehydes, Part VI. Complete Reduction of the Carbonyl Group 73

Hajime Kotô—On the Reflection of the Ultra-Violet Rays from Metallic Surfaces in Relation to their Micro-Structures ... 81

Shuyo Ito—A Simple Method of obtaining a Single-Crystal of Zinc with Approximately any Desired Orientation of its Principal Axis 97

Osamu Masaki—Studies in Photographic Sensitivity, Part III. Sensitizing Action of Previous Exposure to a Dim Light... 107

Osamu Masaki—Studies in Photographic Sensitivity, Part IV. Desensitizing Action of Previous Fogging by X-Rays ... 117

PAGE

Osamu Masaki—Studies in Photographic Sensitivity, Part V. Effect of Heat on the Absorption Spectrum and Photoelectric Conductivity of Silver Bromide, and their Relation to the Photographic Action... 127

Masayoshi Ishibashi—Quantitative Analysis of Phosphoric Acid, Part IV. Gravimetric and Valumetric Determination as Ammonium Phosphomolybdate 135

Otozo Funakoshi—A Sensitive Reaction of Cuprous Ion 155

Buntaro Fujita—Crystal-Faces developed by etching Metallic Crystals of Aluminium and Zinc 159

Takeo Fujiwara—Tensile Strength and Fracture of Rolled Strips of Molybdenum... 165

Daidzi Iitsuka—On the Effect of mixing Small Quantities of Cobalt with Brass 179

Jinzo Tsutsumi—An Examination of the Micro-Crystals of Calcium Carbonate in Molluscan Shells by Means of X-Rays, Part III 199

Usaburo Yoshida and **Shogo Tsuboi**—Examination of Ice-Crystals by X-Rays... 203

Shogo Tsuboi—On the Fibrous Structure in Metals deposited through Difference in Electrolytic Solutional Pressures, Part II... 209

Tatsumi Terada—"The Reversal-Like Phenomena" of the Discharge-Figures impressed on Photographic Plates 217

Shogo Tsuboi—On the Favourable Direction of Growth of Some Metal-Crystals 223

Masaharu Tasaki—Ueber das ternäre System Cu-Sn-Sb 227

Setsuzo Takeyama—A Method of determining the Direction of the Axis of a Fibrous Arrangement of Micro-Crystals ... 257

Yoshio Fukami—The Arrangement of the Micro-Crystals in Compressed Single-Crystal-Plates of Aluminium... 261

T. Nomitsu, R. Kamimoto and **Y. Toyohara**—On the Adsorption of a NaCl-Solution by Sand 265

Kawan-ichi Asagoe—Classification of the Spectral Lines of Cl, Br and I... 275

Goro Shima—On the Electrolytic Reduction of Ketones, Part I. Reduction of α,β-Unsaturated Ketones... 327

Kiōchiro Ogura—Electrolytic Reduction of Nitriles, Part I 339

PAGE

Hidemaru Itomi—The Electrolytic Reduction of O-Nitrobenzene Azophenol 343

Shuzo Ueno—On the Ternary Silver Alloys, I: The System of Silver, Copper and Zinc 347

Kenzo Tanaka—The Orientation of Single-Crystals of Tin 375
